## PROFESSIONAL SUMMARY

I'm a frontend developer and IT specialist with hands-on experience maintaining and improving business websites, solving tech issues, and analyzing data to support decision-making. I enjoy building clean, responsive interfaces using Vue.js and JavaScript, and I'm always learning new ways to create better user experiences. My background in data analysis also helps me think clearly and solve problems efficiently.

## TECHNICAL SKILLS

Languages/Frameworks: JavaScript, Vue.js, HTML5, CSS3, Tailwind CSS, Python

Tools: Git, Power BI, Tableau, Excel (Pivot Tables, VLOOKUP), SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn, BeautifulSoup

Other: Responsive Web Design, Data Visualization, Problem-Solving, Communication
